DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter, which the applicant regards as his invention.

2. Claim 54 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

3. Claim 54, line 2, "said procedures based said the determined status" is unclear.

Examiner's emphasis added.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

5. Claims 51 – 54 are rejected under 35 U.S.C. 102(e) as being anticipated by US Patent No. 6,427,627 B1 to Huisma.

6. Huisma discloses the claimed invention including: (claim 51) an arrangement for managing a herd of domesticated animals comprising an animal identification system 10 provided with a central unit provided with a computer 14 having a memory, the memory

Art Unit: 3644

containing data for each animal of the herd relating to the status of each animal in the hierarchic order of the herd, as set forth at col. 6, line 12; (claim 52) hierarchic order determining means, the means supplying the data determined to the memory and the memory storing the data, same as above; (claim 53) a method for managing a herd of domesticated animals in which a number of automatic animal-related procedures are performed, same as above, (or medicating as set forth at col. 15, line 6) the method comprising the step of determining the status of each animal in the herd as to its hierarchic order in the herd; (claim 54) the method comprising the step of controlling at least one of the procedures based on the determined status of the animal involved in the procedure in the determined hierarchic order, as set forth at col. 7, line 45.

Response to Arguments

7. Applicant's arguments with respect to claims 1, 2, 43 and 44 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period

Art Unit: 3644

will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
